Week 1: March 30 to April 3, 2020
Week 2: April 6-10, 2020

I miss you and hope you are all taking care of yourselves. I am anxious for things to get back to normal as soon as possible. But in the meantime, stay safe and use the attached activities to help you review material that we have already covered in class together as of March 13, 2020. You are encouraged to email me if you need any help with anything or just to chat. I will do my best to help you!

Activity 1: RADICAL PACKET

Re-read the Pre-Chapter 5 Review Square Roots and Radicals lesson we did together in class from page 262. As you know this is an Algebra 1 topic and you have the skills necessary to complete the entire Radical Packet. Be sure you show your work for simplifying radicals directly on the packet as well as answering each riddle for each puzzle.

Additional help can be accessed by googling https://www.khanacademy.org
(Math, Algebra 1, Simplifying Radicals)

Activity 2: FACTORING PACKET

Re-read Lesson 5.4, which we covered on March 13. Again this entire packet is a review of Algebra 1 concepts on Factoring by GCF, Factoring by grouping as well as Solving by Factoring. Be sure to show your work for each puzzle, directly on the Puzzle Pages. If additional work pages are necessary, please number them by Puzzle #, be as neat and organized as possible so I can follow your work.

Additional help can be accessed by googling https://www.khanacademy.org
Math, Algebra 1 Topics to watch:
- Factoring Quadratics with GCF,
- Factoring Quadratics by Grouping
- Solving Quadratics by Factoring

I realize we have not reviewed any of the Puzzles that are equations but you did a lot of this in Algebra 1. Again, use Kahn Academy to see how you do with recalling the concept!

Stay safe every one! I'd love to hear from all of you. I'm here to help in any way I can.
