Here is the Honors Alg. 2 assignment.

**March 30-April 3**

1. Complete the factoring packet. Examples are in sections 5-4 and 5-5 in the book.
2. Complete the radical packet. Examples are in sections 5-5, 7-1 and 7-2. Look at square roots only in chapter 7.

**April 6-10**

1. Read section 6-1 and take notes as necessary. Familiarize yourself with the vocab on page 301. Try P 303 #1-12, 33-57 odd. Also, if you can find a TI-84 plus graphing calculator online, you can try #13 and 15.
2. Read section 6-2 and take notes as necessary. Try P 311 #1-12, 16-20, 37, 43-46. Also try #13 and 14 if you can find a calculator.

You can email me questions at tirjanti@wallenpaupack.org. You may also find videos on YouTube or Khan Academy helpful.

These assignments will NOT be graded and are NOT mandatory. I do believe it will be helpful for you to become as familiar as you can with this material.

Stay safe. Hope to see you soon!

Mr. Tirjan
