School Required Federal Reporting Measures

A Required Federal Reporting Measure is a critical tool both for promoting State, LEA and school accountability, and for engaging parents and communities in meaningful discussions about the academic challenges and opportunities facing their schools. Accurate and timely information brings transparency to education policies, uncovers academic challenges and deficits, and highlights areas in which the State, LEA, and schools have made gains.

A well-informed public is important to improving LEAs and schools. In the same way that data enable educators to make better decisions about teaching and learning, data can also help parents and other community members work more effectively with educators and local school officials. Additionally, the more parents and community members know about the academic achievement of their children and their schools, the more likely they are to be involved in their local schools and LEA. Equipped with information on academic results and teacher quality, parents and community members can make better decisions concerning their children's educational pathways and become more effective advocates for their children's schools and LEA.

Results Included in Required Federal Reporting Measure Data

Student results from the Pennsylvania System of School Assessment (PSSA) grades 3-8, Keystone Exams grade 11, and the Pennsylvania Alternate System of Assessment (PASA) grades 3-8 and 11 are used to calculate Required Federal Reporting Measure data.

This report contains:

- **Attendance Data**
Attendance rates are displayed for the previous school year.
- **Accountability Data**
This section shows the school's performance compared with the goals set by federal and state accountability requirements. Student results from the PSSA, Keystone Exams, and the PASA are listed by disaggregated group and performance level.
- **Achievement Data**
Here you can compare two years of participation and academic performance data for the PSSA, Keystone Exams, and the PASA for the All Student category only. One year of data is presented for participation rates and performance levels in the other categories. The results are displayed by grade, subject, and disaggregated group.
- **Teacher Quality Data**
This section includes both numbers and percentages of classroom teachers in the state who are highly qualified or hold emergency certification.

Attendance Data

District: **Wallenpaupack Area SD**
 School: **Wallenpaupack South El Sch**

Pennsylvania’s Accountability Data includes student performance on the other academic indicators, attendance and graduation rate. Both measures are based on data from the previous academic year. Attendance rates measure the number of days that a student was both enrolled and present in the school. Research shows that a strong relationship exists between regular attendance and academic performance.

— Indicates 10 or fewer students in a group. To provide meaningful results and to protect the privacy of individual students, data are printed only when the total number of students in a group is greater than 10.

¹ Attendance measure is a goal of 90%, or any improvement from last year.

² There can be overlap among the groups since a student may belong to more than one of these groups.

³ Historically Underperforming Students—defined as a non-duplicated count of students with disabilities, economically disadvantaged students, and English Language Learners enrolled for a full academic year taking the PSSA. If a student is in more than one of the individual groups (e.g., special education and English Language Learner), s/he is only included in the Historically Underperforming Student group one time—a non-duplicated count. This group is not a cohort but rather students currently in the state meeting the definition during the reported year.

Accountability Data

District: **Wallenpaupack Area SD**
 School: **Wallenpaupack South El Sch**

The purpose of this section of the Required Federal Reporting Measures is to show a comparison between student academic achievement levels and the State's Annual Measureable Objectives (AMOs) in reading/literature and in mathematics/algebra I. The participation tables in this report include students who were enrolled in the state for any part of the academic year. The performance tables in this report include students who were enrolled in the state for a full academic year. These numbers may not match the results in the Achievement Section of the Required Federal Reporting Measures.

² Includes the number of students who have received a score on the test taken.

³ The participation rate is based on the total number of tests scored divided by the total number of students enrolled on the last day of testing. Students with Medical Emergency are excluded from the calculations.

⁴ The performance of students scoring proficient and above includes those who took the PASA, although the number of proficient and advanced scores based on the PASA will not exceed 1% of all assessed students.

Achievement Data

District: **Wallenpaupack Area SD**
 School: **Wallenpaupack South El Sch**

These tables reflect all students taking the PSSA in reading and mathematics in grades 3-8, students taking the PSSA in science in grades 4 and 8, students taking the Keystone Exams (Algebra 1, Biology and Literature) in grade 11 and students taking the PASA in grades 3-8 and 11 who were in the state for any part of the academic year.

The purpose of this section of the Required Federal Reporting Measures is to show how students performed on the PSSA over the past two years in Mathematics, Reading, and Science. This data table captures this school's overall performance results and participation rates by disaggregated group and compares it to this school's results in the previous year. The table reflects all students taking the PSSA in grades 3-8 who were in this school for any part of the academic year.

NOTE:

Percentages may not total 100 due to rounding. Percentage of students Proficient and above may not total students Proficient and Advanced due to rounding.

This table reflects all students enrolled for any portion of the academic year, meaning that these numbers may not match the results reported for Accountability purposes.

— Indicates 10 or fewer students in a group. To provide meaningful results and to protect the privacy of individual students, data are printed only when the total number of students in a group is greater than 10.

¹ There can be overlap among the groups since a student may belong to more than one of these groups.
