Special Kids Network Meeting

Special Kids Network Meetings are coordinated and facilitated by Regional Coordinators where individuals are brought together to collectively address an identified issue or need. These meetings may occur once or multiple times but should eventually result in a positive resolution or some conclusion.

The Purpose of SKN Meetings:

- To respond to issues that are systemic in nature affecting children and youth with special health care needs and their families and the community that serves them.
- To facilitate opportunities for affected members of the community to come together to thoughtfully discuss identified issues and to collectively apply available resources to improve service coordination, systems integration and enhancement.
- To connect with and engage community people that are available and committed to work with you to resolve and improve special health care needs service issues and challenges in our communities.

Please note that the issues, challenges and needs will be discussed at the meeting
