COURSE: Child Care II

GRADE LEVEL: Eleventh, Twelfth
LENGTH OF COURSE: 1 Year
TEXT: Children: The Early Years
PUBLISHER: The Goodheart-Wilcox Company
COPYRIGHT: 2000

COURSE DESCRIPTION:

Child Care II is the second year of the CDA certification program course. Students will research and learn curriculum development, observation techniques, principles and theories of child development, the growth and development of 2-5 year olds, middle childhood, children’s safety, storytelling experiences, guiding play and puppetry experiences, manuscript writing, research services for families, quality child care and professional development. This course will help the student acquire the skills and knowledge needed to (1) work with preschool age children, and (2) recognize and understand problems faced by individuals and families in the context of their emerging lives. The hands-on “World of Wonders” child development lab program is a part of this course. Students may be required to work with 2 or more young children at a time. The course is recommended to all students who are interested in obtaining preschool teaching assistant certification, furthering their education in working with children, and/or will be dealing with children in any capacity throughout their lives.

CURRICULUM WRITING TEAM:
Barbara S. Dyson

DATE OF REVISION:
2013
### Course: Child Care II

**Grade Level:** 10, 11, 12

**Unit:** Curriculum Development and Implementation of the World of Wonders Program. Chap. 19

**PA Standards:** 0.0.0.A, 0.0.0.B

**POS:** 100, 200, 300, 400, 500, 600, 700, 800, 900, 1000, 1100, 1200

**Competency Goal I.4**

<table>
<thead>
<tr>
<th>Topics</th>

</tr>
</thead>
</table>
| • Curriculum Development  
• Program Goals  
• Who does curriculum development  
• Importance of assessments  
• Content & Process-centered approach  
• Use of Themes  
• Develop & Write block/lesson plans | • Students will design and implement developmentally appropriate environments and materials for the WOW Program.  
• Students will recognize the importance of learning centers.  
• Students will recognize proper classroom management  
• Students will be able to identify theme appropriate books. |

**Activities:**

- After explaining the characteristics of developmentally appropriate programs, students will design and implement preschool activities/lessons based on themes.

- Projects include:
  1. Theme based lesson plans
  2. Opening/Closing activities
  3. Center-based activities.
  4. Samples and materials for completion of all activities in the WOW program

**Performance Assessments:**

- Rubric for lesson plans & projects
- Rubric for running WOW program
- Classroom discussion
- Completed homework/professional terminology
- Quizzes/Tests
- Final cumulative Portfolio
**Course:** Child Care II  
**Grade Level:** Grade 10, 11, 12  
**Unit:** Observation-Tools for Assessment Chap. 3  
**PA Standards:** 0.0.0.A, 0.0.0.B

POS 100, 200, 400, 500, 600, 700, 800, 1000, 1200  
*Competency Goal V.12, V.I.16*

<table>
<thead>
<tr>
<th>Topics:</th>
<th>Skills:</th>
</tr>
</thead>
</table>
| • Why observe children?  
• What understanding of children can we gather from observations?  
• Types of Observations  
• Advantages/Disadvantages of assessment tools  
• Compile a list of contents for a child's portfolio  
• Observation formats | • Students will identify different observation techniques.  
• Students will identify different observations related to WOW.  
• Student will identify how observations can help guide child development. |

<table>
<thead>
<tr>
<th>Activities:</th>
<th>Performance Assessments:</th>
</tr>
</thead>
</table>
| • Students will observe WOW children throughout the year and complete:  
• Different styles of observation forms,  
• Complete forms for WOW centers,  
• Complete a child’s portfolio.  
• Use appropriate forms for observation techniques.  
• Research in dealing with challenging behaviors | • Participate in World of Wonders Program.  
• Completed class work observation packets.  
• Informal Observation  
• Formal Observation  
• Class Discussion  
• Completed homework  
• Quizzes/Tests  
• Cumulative portfolio: add observation forms. |
**Course:** Child Care II

**Unit:** Principles and Theories of Child Development - Chap. 4

**PA Standards:**

**Topics:**
- Areas and Principals of Development
- Windows of Opportunity and Brain Development
- Historical influences on educating children
- How theories can be used as guides
- Contrast theories-Erikson, Piaget, Vygotsky, and Gardner.

**Skills:**
- Students will identify how developmental theories influence early childhood development.
- Students will identify development delays.
- Students will know how to complete various observation forms.

**Activities:**
- Work with WOW Program throughout year.
- Students will discuss and analyze how brain development supports learning, perception and cognitive development.
- Students will discuss and analyze theories of development.
- Students will complete formal observation forms during WOW.

**Performance Assessments:**
- Working in World of Wonders Program
- Class discussion
- Homework
- Quizzes/Tests
- Final cumulative portfolio-Resource field of community agencies for education.
**Course:** Child Care II  
**Unit:** Understanding Growth and Development of 2-5 year olds.

**Grade Level:** Grades 11, 12  

**POS:** 100, 200, 300, 400, 500, 600, 700, 800, 900, 1000, 1100, 1200

### Competency Goal II.5:

**Topics:**
- Physical Development of the Toddler
- Cognitive Development of the Toddler
- Emotional-Social Development
- Providing for Toddler’s Developmental Needs
- Recognizing Developmental Delays
- Expressive Language/Phonological development

**Skills:**
- Students will identify developmentally appropriate activities and behaviors for toddlers.
- Students will identify appropriate discipline/guidance techniques.
- Students will identify developmental delays and intervention techniques.

### Activities:
- Students will analyze physical development
- Students will discuss and analyze developmentally appropriate intellectual, sensory, language, and motor development activities
- Students will discuss and analyze types of guidance for developing emotional control and problem solving skills for toddlers.
- Students will observe and analyze how toddlers use pencils or crayons.
- Students will select songs, word games or poems to promote phonological awareness.

### Performance Assessments:
- Classroom discussions.
- Completion of homework.
- Quizzes/Tests
- Participation in World of Wonders program.

| • Obtains certification in pediatric first-aid training.  
• Obtain contact information of agencies that provide resources/services for children with disabilities.  
• Research local agency for family referrals.  
• Recognize signs of neglect/abuse.  
• Research local agencies for reporting abuse.  
• Potential liabilities as a child care provider. (Indoor/outdoor safety, food storage, etc.) o Research in dealing with challenging behaviors | • Students will earn pediatric first-aid certification.  
• Students will understand/identify signs of neglect/abuse in children.  
• Students will understand how to contact various referral agencies.  
• Students will understand facility layout to prevent abuse.  
• Students will be able to treat minor accidents. |

**Activities:**  
• Students will complete pediatric first-aid training during class time.  
• List objectives for maintaining a safe environment.  
• Students will research and compile a list of local agencies regarding: √ Disabilities  
√ Family Counseling  
√ Reporting Neglect/Abuse  
• Summarize legal requirements in Pennsylvania regarding reporting responsibilities.  
• Implement ‘child proofing’ the WOW environment.

**Performance Assessments:**  
• Design a theme/lesson plan about fire safety.  
• Complete assigned homework.  
• Quizzes/Tests  
• Complete first-aid certification.  
• Informal Observation  
• Portfolio assignments.
