

Wallenpaupack Area School District

COURSE: TRIGONOMETRY HONORS

GRADE LEVEL: Eleventh and Twelfth Grade

LENGTH OF COURSE: 90 days/semester(Block Schedule)

TEXT: Trigonometry

PUBLISHER: D.C. Heath and Company

COPYRIGHT: 1993

COURSE DESCRIPTION:

Trigonometry Honors includes a right triangular and a circular approach, curve sketching, identities, solving triangles, logarithms and polar coordinates.

Trigonometry Honors follows the same general course of study as Trigonometry but includes more difficult examples on most topics and is graded at a more challenging level. It often includes optional topics not generally covered in the regular course. Special projects are frequently included.

CURRICULUM WRITING TEAM:

Lynn Cunningham
Mel Vogler
Betty Mang
Jim Ball

DATE OF REVISION:

2006

Wallenpaupack Area School District

Course: Trigonometry Honors

Grade Level: 11 & 12

Unit: Prerequisites for Trigonometry

PA Standards: 2.1.11.A
 2.2.11.C
 2.2.11.E
 2.2.11.F
 2.3.11.C
 2.5.11.B
 2.5.11.C
 2.8.11.A
 2.8.11.E
 2.8.11.K
 2.8.11.L
 2.8.11.N
 2.8.11.O
 2.8.11.Q
 2.8.11.S
 2.8.11.T

Topics:	Skills:
The real number system Solving equations The Cartesian plane and graphs of equations Lines in the plane: slope Functions Graphs of functions Combinations of functions and inverse functions	Categorize numbers as natural numbers, integers, rational numbers or irrational numbers Order the real numbers on the number line Distinguish the difference between bounded and unbounded intervals Solve linear, quadratic and polynomial equations of higher degree Utilize the distance and midpoint formulas Determine the center and radius of a circle Recognize and determine the equation of a circle Utilize tests of symmetry Determine x and y intercepts of graphs of equations Determine the slope of a line Utilize the point-slope form, slope intercept form, and intercept form of lines Test for and evaluate algebraic functions Determine domain and range of algebraic functions Graph algebraic functions Distinguish between even and odd algebraic functions Determine increasing or decreasing intervals of algebraic functions Perform function transformations
	Skills: (continued)

Wallenpaupack Area School District

	<p>Determine horizontal and vertical asymptotes and utilize them as an aid in graphing rational functions</p> <p>Perform the function operations of additions, subtraction, multiplication, division and composition</p> <p>Determine the existence of an inverse function</p> <p>Find the inverse of an algebraic function</p>
Activities:	Performance Assessments:
<p>Textbook problem solving</p> <p>Partner work</p> <p>Board work</p> <p>Utilize the scientific and graphing calculator</p>	<p>Teacher produced tests and quizzes</p> <p>Class assignments</p> <p>Class participation</p> <p>Teacher observation</p> <p>Board work</p> <p>Homework</p>

Wallenpaupack Area School District

Course: Trigonometry Honors

Grade Level: 11 & 12

Unit: Trigonometry

PA Standards: 2.1.11.A
 2.2.11.A
 2.2.11.E
 2.2.11.F
 2.3.11.A
 2.3.11.B
 2.3.11.C
 2.4.11.E
 2.5.11.C
 2.8.11.A
 2.8.11.E
 2.8.11.O
 2.8.11.Q
 2.8.11.S
 2.8.11.T
 2.9.11.G
 2.9.11.I
 2.10.11.A
 2.10.11.B
 2.11.11.A

Topics:	Skills:
Radian and degree measure The trigonometric functions and the unit circle Trigonometric functions and right triangles Trigonometric functions of any angle Graphs of sine and cosine functions Graphs of other trigonometric functions Other graphing techniques Inverse trigonometric functions Applications of trigonometry	Know angle terminology Know what a radian is Find coterminal, complementary and supplementary angles Perform manual and calculator conversions between degrees and radians Perform manual and calculator conversions between degrees-minutes-seconds and decimal degrees Apply knowledge of radians to solve angular speed situations Define the six trigonometric functions as a product of the unit circle Utilize the periodic nature of the six trigonometric functions Use the unit circle to evaluate trigonometric functions Use the scientific or graphics calculator to evaluate trigonometric functions Know and use the right triangle definitions of the six trigonometric functions Revisit and use the Pythagorean Theorem

Wallenpaupack Area School District

	<p>Skills: (continued)</p> <p>Apply the right triangle definitions to solve real world applications</p> <p>Determine reference angles and use those reference angles to evaluate trigonometric functions</p> <p>Recognize and use key points and characteristics to graph the six trigonometric functions</p> <p>Use addition of ordinates to sketch the graph of a trigonometric function</p> <p>Evaluate inverse functions with or without a calculator</p> <p>Know and utilize the properties of inverse functions to evaluate trigonometric expressions</p> <p>Solve practical problems involving right triangles using the trigonometric functions, their inverses and the Pythagorean Theorem</p>
<p>Activities:</p>	<p>Performance Assessments:</p>
<p>Textbook problem solving</p> <p>Partner work</p> <p>Board work</p> <p>Utilize the scientific and graphing calculator</p>	<p>Teacher produced tests and quizzes</p> <p>Class assignments</p> <p>Class participation</p> <p>Teacher observation</p> <p>Board work</p> <p>Homework</p>

Wallenpaupack Area School District

Course: Trigonometry Honors

Grade Level: 11 & 12

Unit: Analytic Trigonometry

PA Standards: 2.1.11.A
2.2.11.E
2.2.11.F
2.4.11.A
2.4.11.B
2.4.11.C
2.5.11.B
2.5.11.C
2.5.11.D

Topics:	Skills:
Applications of fundamental identities Verifying trigonometric identities Solving trigonometric equations Sum and difference formulas Multiple-angle and product-sum formulas	Know and use the fundamental identities to evaluate trigonometric functions Use the fundamental identities to simplify trigonometric expressions Use the fundamental identities to develop and verify additional trigonometric identities Use the fundamental identities to solve trigonometric equations
Activities:	Performance Assessments:
Textbook problem solving Partner work Board work Utilize the scientific and graphing calculator	Teacher produced tests and quizzes Class assignments Class participation Teacher observation Board work Homework

Wallenpaupack Area School District

Course: Trigonometry Honors
Unit: Additional Applications of Trigonometry

Grade Level: 11 & 12

PA Standards: 2.1.11.A
 2.2.11.A
 2.2.11.E
 2.2.11.F
 2.3.11.A
 2.3.11.C
 2.4.11.B
 2.4.11.C
 2.4.11.E
 2.5.11.B
 2.5.11.C
 2.5.11.D
 2.8.11.D
 2.9.11.G
 2.9.11.I
 2.10.11.B

Topics:	Skills:
Law of Sines Law of Cosines Vectors in the plane The dot product	Use the Law of Sines and Law of Cosines to solve (find sides and angles of) oblique triangles Know what the Law of Sines' ambiguous case is and how to apply it to solve oblique triangles Calculate the area of an oblique triangle Demonstrate the usefulness of the law of sines and the law of cosines to solve problems relating to real life situations Use Heron's formula to calculate the area of a triangle Know and use vector vocabulary Use and apply the vector operations of scalar multiplication, vector addition, and dot product Find the component form, the magnitude, and direction angle of a vector Determine a unit vector Calculate the dot product of two vectors Calculate the angle between two vectors Determine if two vectors are orthogonal, parallel, or neither Determine the projection of one vector onto another Apply vector mathematics to work related problems

Wallenpaupack Area School District

Activities:	Performance Assessments:
Textbook problem solving Partner work Board work Utilize the scientific and graphing calculator	Teacher produced tests and quizzes Class assignments Class participation Teacher observation Board work Homework

Wallenpaupack Area School District

Course: Trigonometry Honors

Grade Level: 11 & 12

Unit: Complex Numbers

PA Standards: 2.1.11.A
 2.2.11.C
 2.2.11.F
 2.5.11.C
 2.8.11.J
 2.8.11.N

<p>Topics:</p> <ul style="list-style-type: none"> Complex numbers Complex solutions of equations Trigonometric form of a complex number DeMoivre's Theorem and nth roots 	<p>Skills:</p> <ul style="list-style-type: none"> Know and utilize vocabulary associated with complex numbers Apply the operations of complex numbers Solve quadratic and polynomial equations with complex solutions Find zeros of polynomial functions Write the equation of a polynomial when given the zeros Represent a complex number graphically Convert complex numbers to trigonometric form Convert a number in trigonometric form into a complex number Perform multiplication and division of complex numbers in trigonometric form Use DeMoivre's Theorem to raise a complex number to a power and to take a root of a complex number
<p>Activities:</p> <ul style="list-style-type: none"> Textbook problem solving Partner work Board work Utilize the scientific and graphing calculator 	<p>Performance Assessments:</p> <ul style="list-style-type: none"> Teacher produced tests and quizzes Class assignments Class participation Teacher observation Board work Homework

Wallenpaupack Area School District

Course: Trigonometry Honors

Grade Level: 11 & 12

Unit: Exponential and Logarithmic Functions

PA Standards: 2.1.11.A
 2.2.11.A
 2.2.11.B
 2.2.11.E
 2.2.11.F
 2.3.11.C
 2.4.11.B
 2.4.11.C
 2.4.11.E
 2.5.11.C
 2.5.11.D
 2.8.11.A
 2.8.11.B
 2.8.11.D
 2.8.11.E
 2.8.11.N
 2.8.11.O
 2.8.11.Q
 2.8.11.S
 2.8.11.T

Topics:	Skills:
<ul style="list-style-type: none"> Exponential functions Logarithmic functions Properties of logarithms Solving exponential and logarithmic equations Exponential and logarithmic applications 	<ul style="list-style-type: none"> Use a scientific or graphics calculator to evaluate transcendental functions (exponential and logarithmic functions) Evaluate logarithmic expressions manually Graph transcendental functions Know and apply the properties of exponential and logarithmic functions Solve exponential and logarithmic equations Solve real life situations that can be modeled with transcendental functions
Activities:	Performance Assessments:
<ul style="list-style-type: none"> Textbook problem solving Partner work Board work Utilize the scientific and graphing calculator 	<ul style="list-style-type: none"> Teacher produced tests and quizzes Class assignments Class participation Teacher observation Board work Homework
